RE: Credit Bureau of Farmington

To Whom It May Concern:

Our office contracted with the Credit Bureau of Farmington in August 2008 after several years of not using a collection agency for our unpaid accounts. We have found the staff at CBF to very professional in everything they do and to helpful and friendly any time we need questions or help with an account.

We have also been impressed with the fact that they have collected and had paid in full several older accounts that our office was unable to get patients to respond to phone calls or letters offering discounts. We have been satisfied with the results CBF has provided to our office and would recommend them to other offices having difficulties collecting on old accounts.

Sincerely,

Paula Vaughan
Office Manager
